

## **b\_sit – Exclusive Seating Comfort**

### **Bad Münden, October 2006.**

Haworth is to present a new, high quality seat furnishing with an elegant and timeless design, at this year's Orgatec exhibition, under the project title of 'b\_sit'. The cantilever chair has been designed by 'Design Ballendat' and has a persuasively clear and yet innovative form. b\_sit is to be marketed under the banner of the art.collection brand, which makes it an ideal addition to the exclusive conference tables already available from that brand, as well as the latest New Symposium range of furnishings.

b\_sit will be available from the first quarter of 2007. Customers can choose from a range of frame finishes, including black powder coating, silver metallic, chrome matt, and chrome high gloss.
